## ANTICIPATES INVASION OF SOUTH CHINA

By "Telegraph" Staff Correspondent

Wuchang, June 30. Yesterday, as Staff Officers brought reports of the fall of Matang forts, and the discouraging information that the way would soon be open for a Japanese naval advance along the Yangtse River to the boom at Kiukiang, Generalissimo Chiang Kai-shek gave me an exclusive interview from his Headquarters here.

The fall of Matang did not appear to be unexpected at the Generalissimo's headquarters, and Chiang Kai-shek imperturbably envisaged an ultimate Chinese withdrawal from Hankow as part of the Chinese strategical policy.

The Japanese must try to take Hankow for their own prestige," he said.

"We will defend the city in accordance with our at 44 King Kwong Street, Wongstrategical policy but even if, in pursuance of that policy, we eventually withdraw, it will not mean that Japan has gained a victory, just as every other Chinese withdrawal has proved, by time, to be anything but victory for the invaders.

#### Woman's Quick Ear Probably Saved Lives

The faint click of a slowlyturned lock in their bedroom door may have saved Mr. and Mrs. G. T. Padgett from a horrible death in the early hours of yesterday morning.

Bearing a startling resemblance to the recent Peak crime in which a European lady was stabbed to death and her husband was seriously injured, Mr. and Mrs. Padgett were possibly saved from a similar fate through the fact that Mrs. Padgett is a light sleoper.

Resulting from an incident at Mr. and Mrs. Padgett's residence neichong, police have spread a drag-net over the Colony in a search for a coolie formerly employed by the Britons.

A close watch is being kept on all ships leaving for Macao, from where the alleged intruder is believed to

have arrived last year. The dramatic story of their adventure was told to the Telegraph by Mrs. Padgett in an interview last

## Attlee Warns Against Totalitarianism

London, June 30.

The Prime Minister, Mr. Neville Chamberlain, reported to the House of Commons this afternoon, that the Committee of Privileges had found that a Breach of Privilege of the House had been committed in connection with the Military Court of Inquiry ordering Mr. Duncan Sandys, Member for Norwood, to appear in uniform before it.

The Committee, however, recommended that no further action be taken.

Subsequent to reporting the findings of the Committee of Privileges, Mr. Chamberlain moved the appointment of a Select Committee, consisting of nine supporter of the Government and five supporters of the Opposition, to inquire into the substance of the allegations by Mr. Sandys, the action of the Ministers concerned, and generally the question of the applicability of the Official Secrets Act to members of the House of Commons discharging their Parliamentary duties.

It is not a question of growing hair to any greater length than it is worn at present. If it is seven or eight inches at the nape of the neck, that is the ideal length. The whole difference lies in the manipulation of the hair.

No longer must it be brushed downwards. You must persevere with an upward brush stroke night and morning.

#### Taper the Hair

VOU must have the hair tapered. .Don't be afraid when the hairdresser takes the seissors and clips along the length of each strand of hair at two-inch intervals. These new hair styles demand a trim shapeliness which the hairdresser can only obtain by expert thinning of the hair.

Imagine what would happen if you suddenly swept your hair up from the nape of the neck and brought the hair from the forehead directly back to meet it. On the crown of your head you would have a sprouting bunch of hair like the greenery on a carrot top.

But if the hair is properly cut and the curbs dexterously placed in position a sophisticated crown dressing will result. This, though it resembles the line of great grandmama's cofffure, will have the piquant note of 1938 modernity.

The back hair when being set should be combed directly upwards from the nape of the neck and then a faint wave impressed on it following the natural shape of the head

#### Shadow Wave

THIS does much to obviate the impression that the half is scraped up to the top of the head. If a faint shadow wave persists it gives a flowing appearance to the late. Where it is omitted, if not careful, the wear er looks as if her hair has been "electrocuted."

There are various ways of keeping the top curls in place: Hair grips can be used if the curls are sufficiently bulky to hide them.

Two grips can be pierced through a narrow strip of clastic which matches the hair and inserted either side of the head. This will hold the

That, is, why doctors and nurses recommend Horlicks as an ideal food for patients suffering from gastric ulcers and all inflamed conditions of the stomach.

Horlicks contains the essential elements of nourishment. It is pleasant to take. It builds up energy, restores 'vitality, without irritating even the most sensitive stomach. It gives you strength to combat a long illness, and shortens convalescence.

Get Herlicks to-day. In these difficult times of anxiety and worry, the task of carrying on and doing work which must be done is a doubly difficult one which must

tend to exhaust one's nervous energy. Horlicks builds up strength, vitality and prevents that listlessness and tiredness caused by constant nervous strain. H. M. Hodges, Kayamally Building, Queen's Road, Hongkong.

#### IMITATION NOT RIGHT FORMULA

Cultured Canadians have seen with regret a tendency the part of some of their people to imitate the customs and manners of their great neighbour to the south. Many now hold that Canada's true policy as a nation should consist in following the example of the United States. It is argued that the history of the American soundness of such a course; and ing medicine and medical nur- distempered dull brown. And yet this is a policy and course of life which has not hitherto recommended itself to the majority of Canadians. In the opinion of this majority imitation would be done in a provincial cottage hoslikely to prove detrimental to the proper development of the national character.

"It is surely a mistake to suppose that a man can attain to anything worth while by such a device as mechanical imitation. It is not by putting off one garment and putting on another in accordance with the fashions in vogue in foreign lands that a man or a nation achieves greater moral stature." . A wiso man has said that if people could only contrive to be, not too unobtrusively, their simple selves they would be both delightful and original, whereas if the a 681/2-hour working week. foreign polish and plating wears off, as it is likely to do at points, they become liable to suspicion as to the quality of the metal underneath.

A battle of unparalleled violence again broke out at June 28.

suffering extremely heavy casualties. The Japanese forces striking at Siangshan, are estimated at 2,000

> Another report from Tungliu, received here this morning, states that Chinese troops surrounding Siangkow on the bank of the Yangtse during the last three days have succeeded in annihilating the majority of the 3,000 Japanese troops who were making a strong stand on the brink

The Chinese find the task of wiping out entirely the Japanese at Slangkow a heavy one because Japanese reinforcements are constantly landed from their warships under cover of

terrific barrages. In the afternoon of June 28 a part of the invaders in a number of steam launches landed at Kishanpa to the west of Matang. Flerce fighting with the Chinese defence forces has broken out.-Central News.

#### PENETRATED POSITIONS

Hankow, June 30. A Chinese communique states that the Chinese have penetrated the Jupanese artillery positions at Matang and have moved west to Tsingshanpa, where the Chinese troops checked the Japanese advance,

The communique said that Japanese warships this morning went up river to Matang and shelled the Chinese positions along the river bank. Only slight damage was done. -United Press.

#### ATTACK ON HANKOW

Hankow, June 30. The Japanese advance west Matang, with the likely breaking soon of the Matang boom, has centred attention upon the Japanese river attack on Hukow, door to Kiukiang, where the defence works are being rushed.

While the main action on the Yangtse river is the sudden concentration of troops north of Chengchow for a westward march, Chinese communiques state that 10,000 Japanese troops from Hsinhsiang along the Taoching railway, and Tsinyang to Pagai have also been despatched, 7,000 Japanese troops have gone north to Shihchiachuang, the main Japanese military base on the Pinghan railway. This indicates a new Japanese move, whose object the Chinese military spokesman could

not tell. The Eighth Route Army is of the opinion that the Japanese are preparing to strike west from Fenyang in an attempt to cross the Yellow River into Shensi. They think that heavy concentration of Chinese troops on the south banks of the Yellow River are probable, east of Tungkwan, as a deterrent to any Japanese attempt to cross the Yellow

River from the north. Eighth Route Army officers state that the aghting in Shansi is taking place only in the newspapers and that practically no serious fighting has been going on in south Shansi. Asked why Linfen had not been taken, they said that "it was very

#### CHOI MA HUI HANDICAP

In the Choi Ma Hui Handicap for strongly recommend Hopefulleg. "D" class over six furlongs, Araxy has something to think about when he weighs out with 168 lbs, for this event and the pony is not a big animal. Cuban Love appeals to me as a good thing and I also like National Dignity. Split Hand is butting up against a better class and the nag has a fair chance for a place.

#### BIG FIELD EXPECTED

The biggest field of the meeting will undoubtedly be seen in the Turf Handleap (second section) and it is a sprint over five furlongs. The new comers to Macao are Acme, Cleeve and Labour Day and they are not too bad for a short run. In addition we have to consider the chances of Cloudy Star, Cricketer, Lucky Seven and Rexiana and two of these ponies have been placed before. It will be the finest scramble ever seen at Areia Preta and spotting the winner is not an easy job. My choice is Cleeve, Cricketer and Rexiana,

## Shanghai 4 Main Race

Shanghai 4, who was one of the best subscription ponies ever seen at Macao, has not been entered for the main event, the "George Potts' Memorial Cup" as the pony is under a cloud. In his absence the gentleman in charge of the poundage has framed a good handicap and it will certainly be the best race of the afternoon. The likely starters are Fairy Auk, Hopefulleg, Merry Docr, Merry Maker and Victory Life, who | GEORGE POTTS' MEMORIAL CUI has the first leg. When they met in the Governor's Cup run on May 1, the winner (Merry Doer) was in receipt of eight pounds from the second pony (Victory Life) whereas on Sunday, Merry Doer has been asked to concede three pounds of

New York, June 30. Laying the corner stone of the Government building for the projected World's Fair, President Roosevelt urged the world to adopt a "good neighbour" policy.

# MRS. MOODY AND MISS JACOBS TO CLASH AGAIN

## FOURTH MEETING IN FINAL TIE AT WIMBLEDON

## ENGLISHMEN ELIMINATED FROM DOUBLES TOURNEY

Having met thrice in the women's final at Wimbledon-in 1929, 1932 and 1935-Mrs. Helen Wills Moody and Miss Helen Jacobs, both of California, will clash again in the 1938 final. Yesterday they won their semi-final matches, the former beating Madame Sperling of Denmark and the latter overcoming Miss Alice Marble, of the United States.

Mrs. Moody was successful in all | Mako's uncanny anticipation at the three previous encounters in the net. Wimbledon final against Miss Jacobs. The last time they met, in 1935, Mrs. Moody was all but beaten; but she made a remarkable recovery from 5-2 behind and won the match by 6-2, 3-6, 7-5,

final scores being 12-10, 6-4. The set. Dane revealed remarkable retrieving powers, and returned some of Mrs. Moody's best shots with case. The rallies were very long, and once the ball crossed the net 28 times when Mrs. Moody had set-point while leading 8-7 in the first set, which lasted 75 minutes.

Madame Sperling herself had two set-points when leading 10-9, but she missed her chance. In the second set, Madame Sperling led 4-3, but she failed to win another game, and the American former champion went out in the tenth.

MISS MARBLE BEATEN Miss Helen Jacobs confounded the Wimbledon officials, who did not "seed" her, by benting Miss Alice Marble by 0-4, 6-4 in the other semi-

## Comprehensive Review Of The First Half Of Local Racing Season

(By "Captain Foster")

The salient feature among the old China Ponics during the first half of the racing season was the defeat of that invincible bay gelding, Liberty Bay, owned by Mr. L. Dunbar, who met his "Waterloo" in Silkylight, belonging to Mr. Eric Moller of Shanghai, grade. at the Annual Carnival. I am sure the result must have astounded quite a number of racing experts, and in less than two months we had another surprise packet when Mr. Eu Tong-sen's Desert Chief turned the tables on Silkylight, who had annexed the Maiden Stakes, the Hongkong Derby and the Champions Stakes in grand style.

Liberty Bay started his racing career in 1932 and he has carned to date an aggregate of \$39,148 including the 1932 Blue Riband, the Hongkong St. Leger, the Champions Miss Helen Jacobs (America) heat Stakes, the Challenge Cup, St. Miss Alice Marble (America) 6-4. Andrew's Cup and many other important classics. All his victories were won by many lengths in easy fashion and it may not be known that Liberty Bay gave 18 "armchair" rides to Mr. L. G. Frost who, it will be remembered, was our champion jockey for many scasons. It is, however, interesting to relate that Mr. "Billy" Hill (who had two wins) had the satisfaction to pilot the first winning mount while Mr. "Buffy" Maltiand from the north was the jockey for Liberty Bay's last success. Mr. Proulx had two easy wins on this wonderful steed, but the present stable jockey, Mr. D. Black has had only one joy ride. It was, therefore, after a sequence of 24 successful outlings that Liberty Bay went under to Silkylight and the pony did not weigh out again after this defeat. It will be recalled that Miss Gem Honling (China) beat bandaged and no doubt the "lay off" earned \$1,000 and over.

> However, Liberty Bay is the present holder of three turf records, namely, the champion course of 11/4 miles in 2.24 ridden by Mr. Hill, the Derby distance of 11/2 miles in 2.56.3/5 piloted by Mr. Proulx and the St. Leger route of 134 miles in 3.32.4/5 steered by Mr. Frost. As Liberty Bay has been classified in the new list, it is safe to assume that he will be donning the colours of Mr. Dunbar after the recess and it is to he hoped that he will make amends.

QUALITY IMPROVES The absence of quantity in the open griffins' events was fully compensated for by a fine increase in quality. #### Bakar And Minu Beat Ferguson, Coleman

Though they scored only on 14 heads against their opponents' ten, A. Bakar and A. K. Minu, of the Indian R.C., had a comparatively ensy victory against M. Ferguson and T. Coleman, of the Kowloon Docks R.C., in the fourth round of the Lawn Bowls Open Pairs championship on the Craigengower C.C. green yesterday, winning by 28 shots to 15.

The Indiana settled down to the green more quickly than their opponents. Ferguson was playing far below his usual form in the early stages of the match and it was not until the 15th head was reached that he was able to gauge his green and weight correctly,

As a result Bakar and Minu ran off with a substantial lend and by the tenth head they were ahead by 17-7, which was increased to 22-8 on ( the 13th.

#### -GREATER THAN WEMBLEY

COTLAND'S Empire Exhibition has been planned Pas a British contribution to the progress of democracy and the cause of international peace.

That is why Socialists have been enthusiastic workers for its success and were associated with the enterprise even before It was made known to the

The exhibition has been planned and constructed on communal principles, and the 700 members of the committee who have shaped it and infused it with life have been inspired throughout by good will to all men and all nations.

Scotland could not by itself have organised this exhibition, which is on a grander, and certainly greater, scale than the Wembley Show of

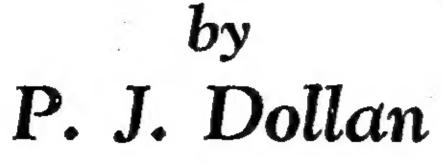

I I is a richer exhibition because the world is older and wiser than It was fourteen years ago.

Scotland therefore asked all the other countries comprising the Brittish Commonwealth to assist, and they have responded generously to the request

In monetary terms the show is Valued at £10,000,000, but it is futile to discuss an exhibition on this basis. There are over 400,000,000 persons in the British Commonwealth which represents the efforts of centuries of struggle

to promote democratic culture The exhibition portrays the results of these centuries because Its majestic pavilions and their marvellous contents would have been impossible without the ideas and sacrifices of the men and

women who preceded us. Scotland, thanks to the friend-

ship and co-operation of the sister nations, is therefore able to stage an exhibition which will be an indication of constitutional progress in industry, commerce, the arts. the sciences, and politics.

The crafts are recognised as of equal importance with the arts, Also, the miner, the steel worker. the foundryman, and the shipbuilder are as much honoured in the exhibits of their trades as the artist or literary man.

Recalling rural life of three centuries ago, the Highland clachan nestles near the great pavilion of the United Kingdom to remind us how brief is a century in the life of a nation.

The exhibition was promoted at a time when Scotland was being scheduled as a distressed area. The country was overrun with pessimism, and the preachers of decadence and bankruptcy attracted the largest audlences.

Pessimists scoffed and sneered when the scheme was first mooted. When a guarantee fund of almost £800,000 was raised they modified their opposition, but still murmured that the exhibition would be a failure.

Working people were asked to support the enterprise by subscribing in advance for season tickets and have been paying sixpences and shillings weekly, representing a total now of almost

Never before has there been such a manifestation of working class good will in any exhibition. This, more than anything else, has inspired the rest

Only by the utmost exercise of diplomatic skill was war averted as Czech and German troops mobilised. Tension easing, diplomits breathed freer, but observers said anything might happen there to start the Second World War.

Rumble of guns grew almost into a roar, as Germin and Czecho-Slovakian armies mobilised, with the Czechs making full preparation to combat a German attack.
